

PINNACLE H.D.

1/4" • PVC VINYL LOGO MATTING

The ultimate outdoor all weather matting solution.

Our entrance mats, crafted from robust PVC vinyl, come in an array of colors, providing an excellent solution for high-traffic areas in extreme climates. The design isn't just printed on - it's carefully cut and inlaid, ensuring the image endures as long as the mat does. With its tough wiping surface, this mat is truly built to last.

- Fully ADA Compliant
- Tough as nails
- Useful in extreme climates
- Aggressive scraping
- UV Resistant
- Perfect solution for all weather environments; wet, dry, cold or hot.

MAINTENANCE

Manual Dry Cleaning

Clean the top surface using a long handed deck scrub or similar brush that will not leave fibers on the mat. Be sure to scrub in both directions to clean the top ribs as well as the tread surface of the PVC mat. Apply a "Dry method" cleaning compound to surface of mat. Brush and agitate compound in all areas of mat until compound is fully absorbed. If possible leave for 30 minutes then vacuum and brush until all compound is removed.

Machine and Wet Cleaning

Follow routine of manual cleaning, then clean top surface using cylindrical brush machine. Initially work in direction of top ribs then across the ribs to complete cleaning. If a cylindrical brush machine is not available equally good results can be achieved using a high-pressure water extraction process. In areas of abundant salt build up, apply a pre-soak solution of vinegar and water (1:20 mix) to the surface prior to machine cleaning.

ENVIRONMENT

van Gelder Inc. does not use any substances currently included in the SVHC (Substances of Very High Concern) list under REACH (Registration, Evaluation, Authorization and Restriction of Chemical substances) in any matting products. All PVC grid products are 100% recyclable.

NOTE: Due to the elastic nature of the product, it is important to avoid rough handling during installation.
